

How we Promote SMSC in our School

Spiritual Development	Moral Development	Social Development	Cultural Development
- RE Curriculum - Assemblies - Collective acts of worship and support for personal acts of worship - School linking partnerships This will aid the development of insights, principles, beliefs, attitudes and values which guide and motivate us. Developing understanding of feelings and emotions which support reflection and learning. Developing recognition that pupils own insights, principles, beliefs, attitudes and that values influence them in their own lives.	- RE Curriculum - Behaviour Policy - School Ethos - Charitable Projects/events This is about the building, by pupils, of a framework of moral values which regulates their personal behaviour. It is also about pupils' understanding of society's shared and agreed values. Moral development is about gaining an understanding of the range of views and the reasons for the range. It is also about developing an opinion on the different views.	- PHSE Curriculum - Pupil voice provision - Nurture groups - Friendship Buddies - Choir This reflects how the school promotes opportunities for our pupils to work effectively with each other and participate successfully in the community. It involves the inter-personal skills for successful relationships and the development of skills and personal qualities necessary for living and working together.	- Citizenship duties to promote community cohesion and race equality - Access to the Arts - MFL This is how the school develops pupils' understanding and respect of cultures, including their own, and reject discrimination based on difference. It also fosters an eagerness to participate in new experiences and to develop awareness of music, art, dance and literature, etc. in different cultures.
